Ekaterina
Borovkova

The story of ADJ started in 2016. After having worked in product design for many years, the founder Ekaterina Borovkova decided to create her own line of accessories for daily life.

The ADJ initial collection of home accessories is inspired by family, evident in the logo design incorporating a symbolic triangle representing sustainability and stability. Ekaterina's children's initials – Aleksandr, Diego and Julia – are enclosed within the triangle, adding a personal element. With Ekaterina's direct involvement, the design process enhances ADJ's distinctive and captivating charm. Each item in the collection carries its own narrative and characters, influencing its color, shape and intended purpose.

Ekaterina's involvement in designing sketches, drawings and manufacturing plans is what sets ADJ apart and makes it attractive. Each item has its own unique story, determining its color, shape and purpose.

A core value of the company is a socially responsible approach to accessory design, aligned with modern environmental manufacturing standards that ensure superior quality and durability.

For our products, we select only the finest prime materials, which help ensure consistent and exceptional quality. The creative office and production in Italy reflect meticulous craftsmanship, guaranteeing a superior level of quality and attention to every detail.

Today, ADJ offers a broad range of fully customizable premium accessories and interior design items. These products cater to various settings such as homes, offices, private yachts and jets, hotels and restaurants. ADJ's commitment to sustainable design, coupled with its attention to details and customization options, sets it apart in the market.

Innovative material

ADJ presents a contemporary take on traditional home decoration, infusing vitality and comfort into any living space. Each product utilizes ADJ's multifunctional leather, which engages tactile, visual, and olfactory senses while being technologically advanced. This leather undergoes double-sided dyeing and a specialized anti-vandal treatment, resulting in enhanced durability against wear, scratches, and abrasions. It maintains easy to clean properties without compromising color and shape. Furthermore, these items are designed to be suitable for both indoor and outdoor home decoration, creating a sensoryrich environment that goes beyond traditional materials.

ADJ® multifunctional leather is an innovative category of leather material that has revolutionized the industry. Confirmed by EMAS certificate [EMAS 104-00122](#).

This multifunctional leather requires advanced high-tech production methods, resulting in a price nearly double that of traditional leather. The manufacturing process involves pressure, high temperatures, and oleophobic treatment, which give the leather its distinctive surface finishes, memory foam, and varying density and strength.

Produced in strict compliance with regulatory requirements, health standards, and environmental norms, our technical department regularly monitors both raw materials and finished products to ensure consistent quality and durability.

SYNESTHESIA

Synesthesia is a modern design approach that combines tactile, visual, and olfactory elements in interior spaces. ADJ accessories create a rich sensory environment, engaging multiple senses to enhance design and add value to any setting.

MULTIFUNCTIONAL

ADJ's multifunctional leather is an innovative material with distinctive surface finishes, memory foam, and density designed for versatility in various areas to meet the diverse needs of contemporary interior and exterior spaces.

REVERSIBLE MATERIAL

Each side of a product has a different colour scheme which broadens the decorative potential of the piece and proves it versatile in any decor.

ACCESSORIES FOR HOME, OFFICE, RESTAURANT, HOTEL

ADJ products seamlessly combine functionality with elegance, making them essential not only for everyday family life but also for professional environments such as HORECA, yachts, jets, and offices. Prioritizing sustainability, our accessories contribute to a greener future, offering durability that is crucial for both daily routines and demanding professional settings.

ADJ offers an elegant and practical line of accessories for table setting and home storage. A distinctive feature of which is the use of the material with unique properties.

ADJ IS:

- › A Modern Brand for 360-Degree Decoration.
- › Synesthetic Design: Engaging multiple senses simultaneously.
- › Versatility: Perfect for any environment.
- › Durability: Designed for everyday use.
- › Sustainability: Contributing to a greener future through long lasting products.
- › Advanced Technology: Ensuring exceptional quality and performance.
- › Enhanced Aesthetics: Showcasing unique surface finishes and a vibrant color palette.

SCRATCHES RESISTANCE

It has high wear resistance to abrasion and scratches, which is extremely important for daily use of products in table setting.

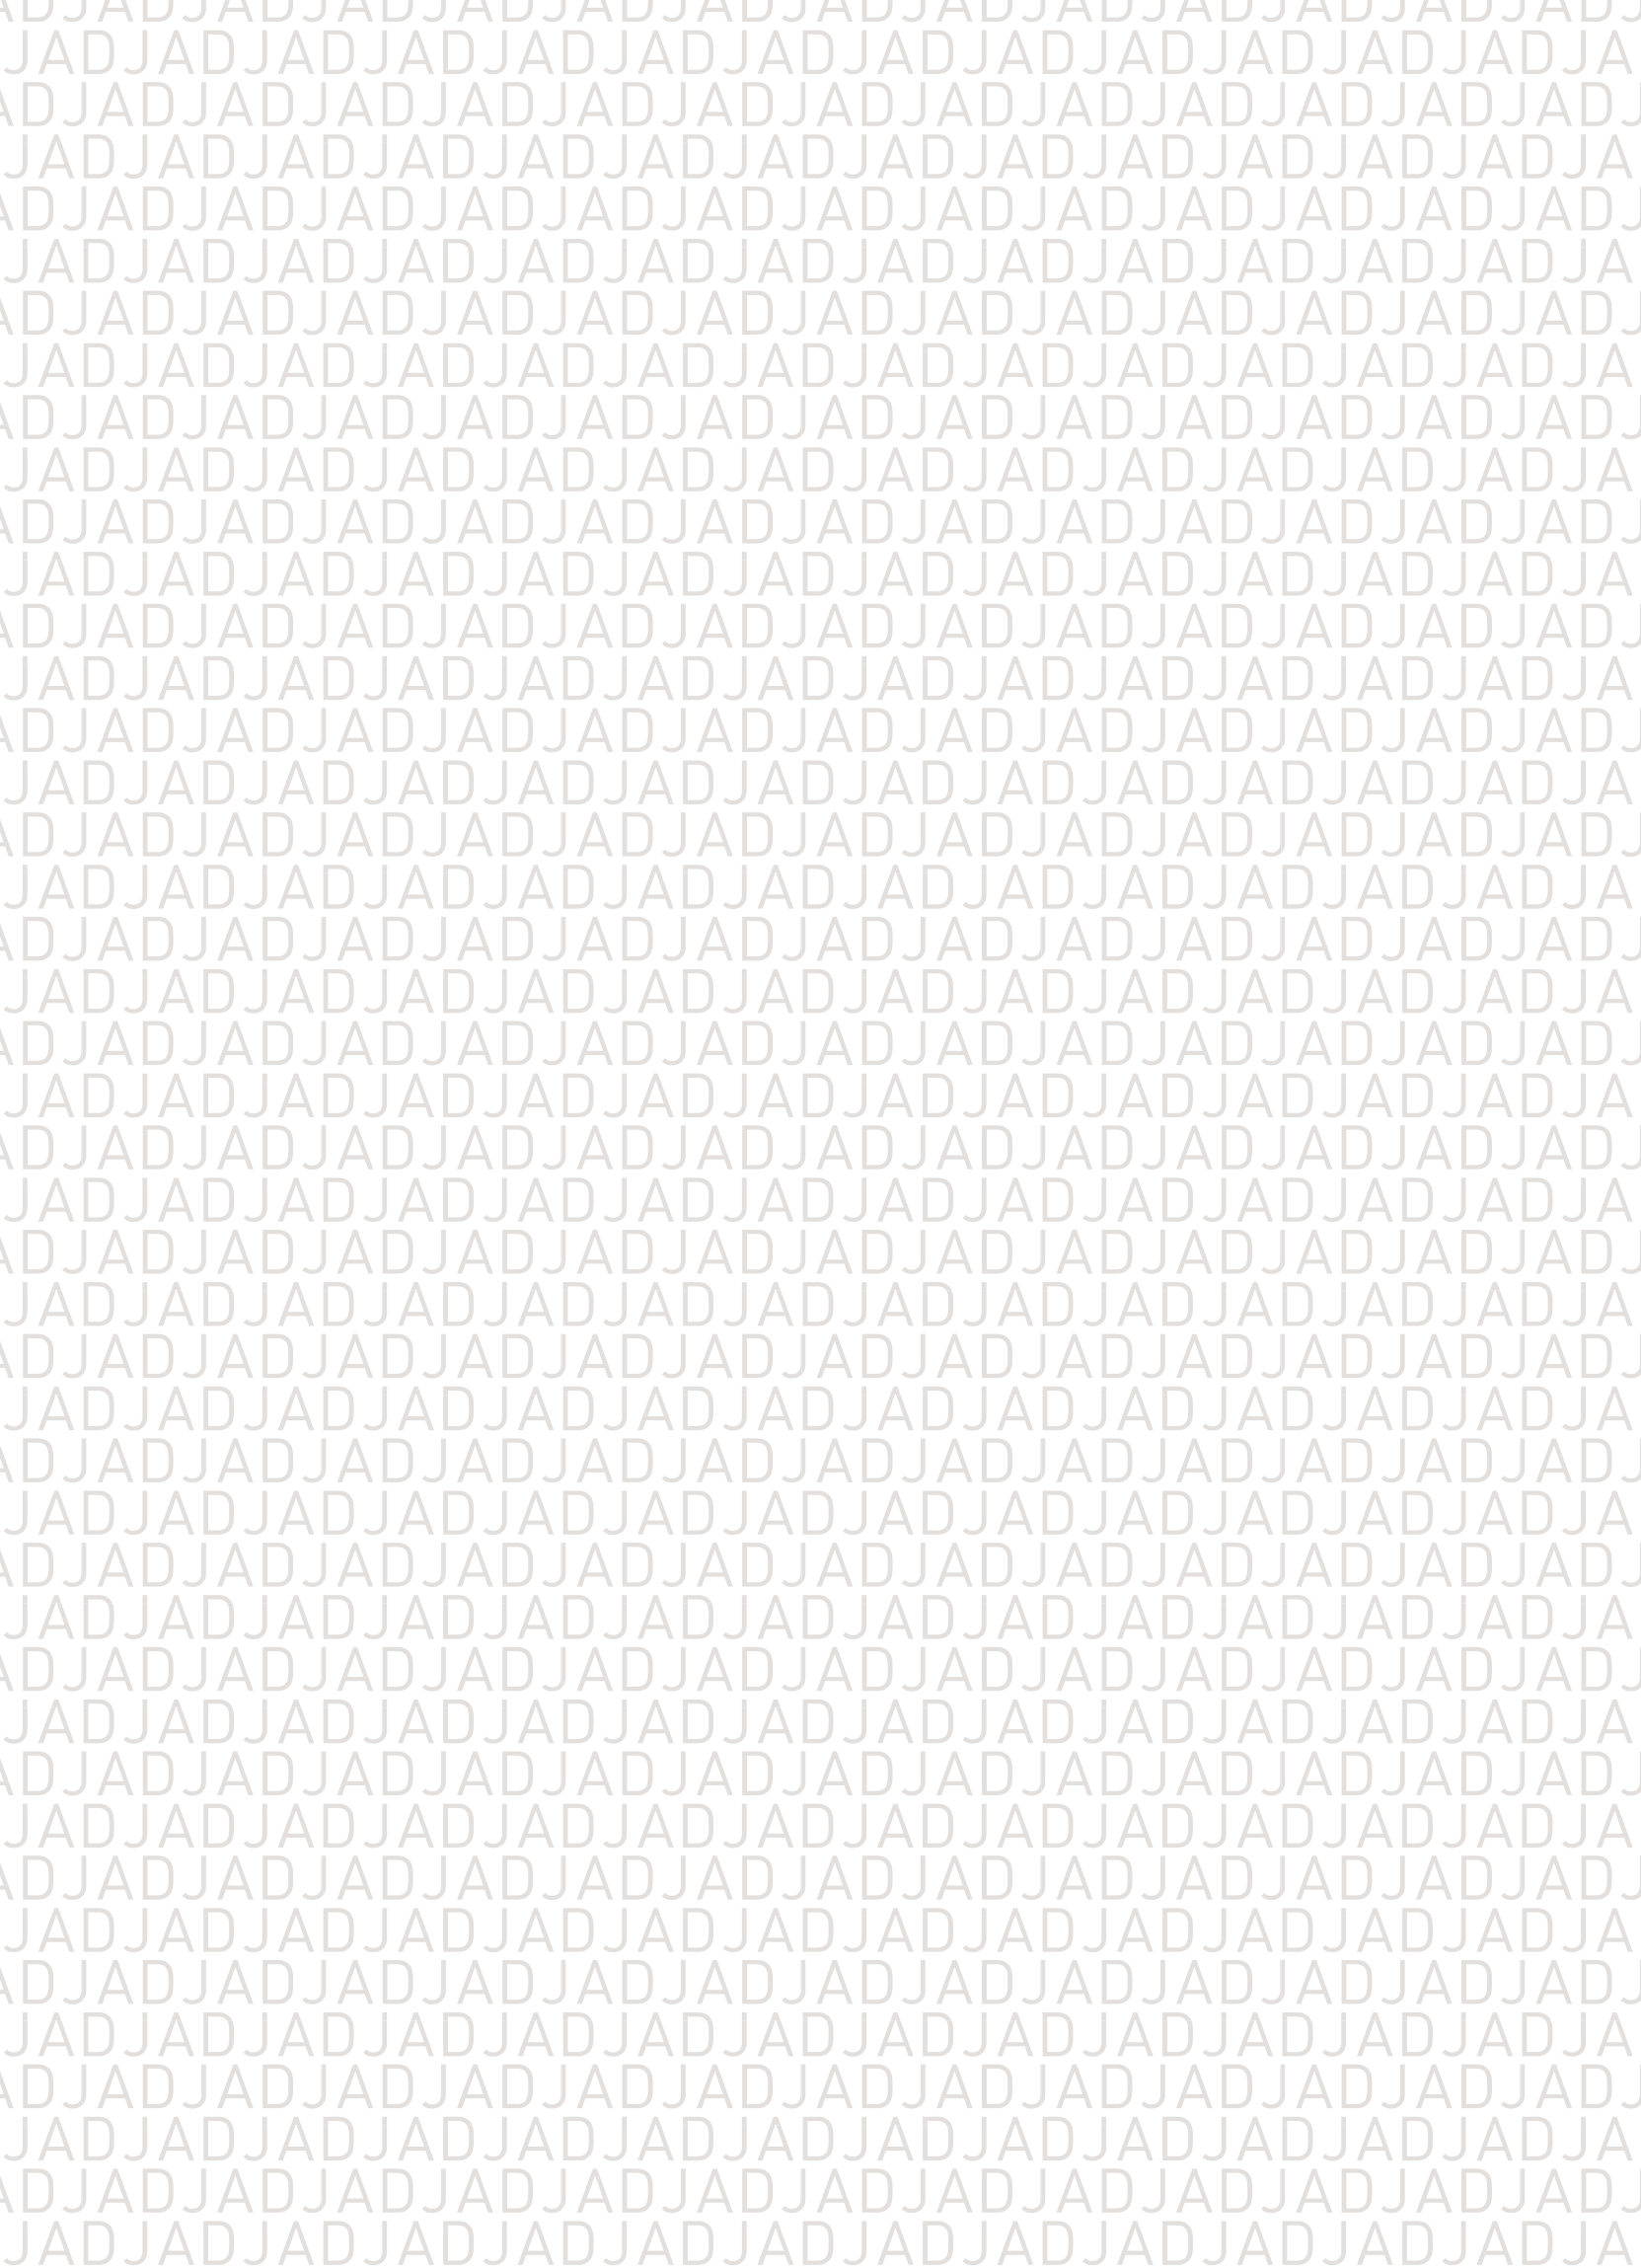

EASY CLEAN

Water and dirt repellent properties make it easy to clean the surface and to get rid of stains from oil, ketchup, sauces and other aggressive products.

THERMAL/COLD RESISTANCE

On both sides the material is coated with a heat active substance that protects leather from swelling and loss of color when used in the sun and cold.

OTTO *From sketch* **TO PROJECT**

" **C**ianpaolo Venier from OTTO Studio (founded by Paola Navone) has conceived an extraordinary collection of leather vases. In collaboration with ADJ Style, combining art, functionality and modern aesthetics, this contemporary reinterpretation of ancient art, with its play of shapes and color combinations, invites art lovers to explore the past through a modern perspective. "

VASE OTTO
Artwork for floristry and decor

This collection of vases is easily recognized for its graphic elements, featuring forms adorned with signs and bicolors that accentuate the tactile three dimensionality achieved through the use of two layers of leather in their construction. These vases could serve as vibrant and central art décor in any interior.

SAUCE HOLDER
protects from dirty stains caused by greasy and caustic sauces

The basic table setting certainly includes spices and sauces - the main culprits of dirty stains. Using a holder for sauces and spices provides an elegant solution to avoid damaging the tablecloth and the table surface. The leather surface has a special treatment that protects it from greasy and caustic food products. It is easy to clean and does not deteriorate over time.

From Lost to **DISCOVERING DUBAI**

“During a layover at Dubai Airport on New Year’s Eve, my carry-on luggage was stolen in the lounge. While police searched for the culprit, I tried to calm myself down by redrawing the pattern of the wavy wallpaper in the lounge. Later on, I cut it out with nail scissors and turned it into an original weaving artwork. That’s how the “Dubai” collection with a distinctive weaving pattern was born.”

DUBAI BASKET
for clothes, toys or plaids

This elegant basket with a chunky wave wicker pattern of rectangles and squares is good for storing linen, slippers, blankets, toys, or sports equipment.

From knots to **RIVIERA COLLECTION**

" The Riviera collection was born as a solution for a splendid yacht. At the entrance, there was a bench with small towels and a container for sun cosmetics. The client had the request for an accessory for towels that wouldn't get damaged or lose its color and shape when exposed to the sun and wet with saltwater, and that would evoke the theme of sailors. Therefore, the distinctive feature of the Riviera collection became an element inspired by a twisted sailor's knot.

"

RIVIERA COLLECTION
for yachts and spas

HANGERS

ADJ, an Italian brand, takes pride in designing and manufacturing hangers for the most discerning customers. Our hangers are more than just tools for organization and storage. With a deep understanding of the importance of preserving the integrity of expensive clothing, our hangers are crafted with utmost care and precision. Each hanger is meticulously designed to provide optimal support and protection, ensuring that your cherished garments maintain their shape and beauty.

NATURALE collection, a range of hangers that exude the natural charm and warmth of real wood. However, what sets these hangers apart is their innovative construction using wood paste and hot extrusion technology. This unique manufacturing process ensures a smooth surface finish and eliminates the common issues associated with traditional wooden hangers, such as peeling and cracking over time.

From the curves, that mimic the natural slope of the shoulders, to strategically positioned notches and clips, each detail works harmoniously to provide optimal support and organization for the clothes.

Nickel plated hook
with a safe edge will not damage the delicate fabric and will not lose its color over time.

Velour overlays
reliably fix clothes in delicate fabrics.

Trousers bar - sheathed with velour fabric, to protect against slipping and jamming of ironed trousers.

Clips for skirts - equipped with silicone pads, do not leave marks on delicate fabrics and smoothly move to adjust to the size of clothes.

WALL PANELS for a personalized and distinctive style

Elevate your space with our luxurious leather wall panels. Crafted to perfection, these decorative panels infuse comfort and sophistication into any interior.

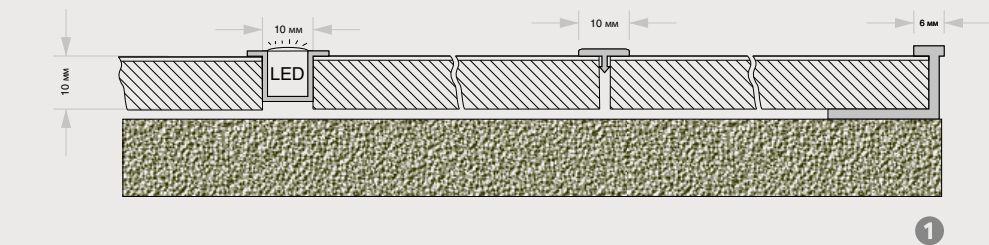

- › **AESTHETIC APPEAL:** Our leather wall panels exude elegance, adding a touch of refinement to your space while creating an ambiance of warmth and coziness.
- › **PRACTICALITY:** Engineered for durability, our leather panels are resistant to wear, scratches, and abrasions, making them ideal for high-traffic areas.
- › **SOUND INSULATION:** Enjoy enhanced acoustics with the superior sound insulation properties of leather. Reduce noise levels in environments such as meeting rooms, offices, restaurants, and home theaters.
- › **CUSTOMIZATION:** Tailored to fit any wall dimensions, our panels can be customized to complement the unique vision of your project, ensuring a seamless integration into your space.

INSTALLATION OPTIONS:

1. Click-and-Lock System:

Easily install and replace panels with our user-friendly click-and-lock system. Requires precise wall preparation and accurate measurements.

2. Liquid Nails:

Opt for permanent fixture using liquid nails, allowing for slight deviations in wall dimensions. No special wall preparation required, with tolerance of up to ± 5 mm per square meter.

Additional Options:

- › LED Installation
- › Profiles with hooks for hanging clothing or accessories
- › Superior thermal and sound insulation

bronze

ADJ accessories with metal elements feature PVD (Physical Vapor Deposition) coating, which forms a protective layer on the surface, similar in hardness to sapphire. This coating protects the accessory from rust and wear while imparting an elegant and noble appearance to the products

Hangers: Hardware \ Wood paste

nickel

wenge

ivory

The wenge and ivory finishes epitomize the charm and warmth of natural wood

ADJ PRODUCTS CARE

ADJ.Style multilayer grained leather products are highly resistant to scratches, fading, swelling and to heat. However, as with any natural material, proper and punctual maintenance by following the manufacturer's recommendations is required:

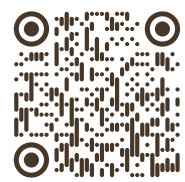

- ! Table service products should be scrubbed with a degreaser to eliminate traces of oil, wine, sauces and tea within the day, while it is preferable to immediately eliminate traces of coffee, vinegar and acidic agents. After using the degreaser, please rinse with water until the degreaser is completely removed and dry.
- ! It is recommended not to wash in the dishwasher and not to leave the product on damp surfaces. In case of prolonged contact with water, it is necessary to leave the item in a dry environment for a day, placing something heavy and flat on it to avoid deformation of the surface.
- ! The maximum temperature allowed for contact with very hot objects is 90°C, therefore it is advisable not to place very hot dishes on the product

! It is not recommended to place heavy items on top of baskets and boxes, as this may cause them to warp.

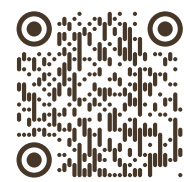

Please use the product according to its intended purpose, avoiding extreme conditions. Please also follow these care instructions to ensure the long life of the product.
